

Transform Oncology

A comprehensive, connected approach to managing cancer

Aetna.com
91.03.283.1 (11/20)

Find a balance in cancer care

For employees

A cancer diagnosis is life changing. And your employees can feel overwhelmed and frustrated trying to manage it all.

They may not:

- Understand their benefits
- Be able to locate the right providers
- Get certain services approved

For you

You want to support your employees and allow them access to the best treatment solutions for their cancer. But you also want to control costs.

By the end of 2020, there will be over:

1.8M newly diagnosed cancer cases¹

40% of total pharmacy spend on oncology drugs²

\$245B in cancer care costs by 2030³

Get complete oncology care

Through Aetna® care management, we offer a comprehensive oncology point solution with three tiers of care management offerings:

Aetna One® Essentials
Acute case management

Aetna One® Flex
Acute and chronic case management support

Aetna One® Choice
Acute and chronic support with integrated utilization management

Better patient experience

Better therapy and treatment

Better quality care at a lower cost

Flexible resources provide members with proactive, ongoing support and access to better quality care.

Care management offerings to help support the cancer journey

Cancer support centers

Digital library and tools guide your employees and/or their caretakers through the process of managing their diagnosis, treatment and care for breast, colorectal, prostate, lung and women's reproductive cancers.

Patient support

Care management offers support for treatment side effects and medication management which cuts down on ER visits and hospitalizations. Plus, the buy-up option of personal navigators adds an extra layer of support.

Proactive and holistic approach

To address member challenges. This can lead to improved health outcomes and decreased overall health costs.

The Transform Oncology difference for even more support

Personal navigator*

A singular, dedicated advocate — with experience in cancer diagnosis and treatments — provides personalized support to employees (and their caretakers) along their cancer journey.

Employees get support whenever they need it through a “Request to call” button located on the Aetna cancer support centers.

Optimized site of care

The site-of-care program for specialized infusion treatment provides convenient, local access to alternative, lower cost infusion sites. Annual savings for infusion redirection to alternative sites alone can exceed \$270K per patient.⁴

Guided genetic health

Genetic counseling and testing help reduce costs and promote preventive care for breast, ovarian and colorectal cancers.

Precision medicine

Targeted cancer testing can help identify treatment options that work better for your employees.

Clinical trial recommendations

These recommendations increase therapy options when standard treatments are no longer effective.

Beyond ROI

Getting people started on the right cancer treatments, at the right time and with the right support, helps lower the cost of care for you. And creates better outcomes for your employees.

Contact your Aetna representative for more information.

*Highlighted offerings are available as a buy-up option.

⁴CVS Health internal data; analysis of book of business (BOB) data through 2018.

Aetna is the brand name used for products and services provided by one or more of the Aetna group of companies, including Aetna Life Insurance Company and its affiliates (Aetna). Aetna is a part of the CVS Health family of companies.
